Spend 5 days in the park developing your own papier-mâché sculpture. You will learn how to make a wire armature & cover it with papier-mâché. You then get to paint and collage on it. On Friday, the whole group will display their artwork in a large diorama. Each morning & afternoon a couple of hours will be spent on art and during breaks you'll go to the wading pool, playground or the pizza oven.

Erin Robertson Erin is a graduate of the Ontario College of Art, and Guelph University, studied at Atelier Gilbert Diabold, Paris, France, York University with incorporated Independent study in Tanzania E.A. Erin has been an instructor at the Ottawa school of Art since 1994 where she teaches all age groups including diploma drawing, portraiture, sculpture and painting. She has facilitated several workshops for Ottawa Carleton School Board, the Ottawa School of Dance, and the Museum of Civilization.
